SYNTHETIC CLINICAL RECORD

Invented patient identity and values for software development and summarization evaluation

Synthetic Medication Record

Patient ID	SYN-P003	**Record ID**	P003-D03
Patient name	Imran Shaikh	**Age / Sex**	61 years / Male
Document date	2025-08-19	**Record type**	Prescription
Clinical focus	General medicine and lipid follow-up	**Facility**	Example Community Clinic (synthetic)

Medication entry

An older medication list mentions atorvastatin 10 mg at night. It is unclear whether this medicine was prescribed at this visit or is still being taken.

Reconciliation status

Current use, prescribing clinician and start date are not confirmed.

Allergy note

Patient-reported antibiotic-associated rash; exact agent and reaction details require clarification.

Important

This document intentionally contains uncertainty for reconciliation testing.

Safety notice: This is invented data for testing document extraction, provenance linking, longitudinal summarization and medication-reconciliation workflows. It must not be used to diagnose, prescribe, train clinical decision rules, or guide real patient care.
