SYNTHETIC CLINICAL RECORD

Invented patient identity and values for software development and summarization evaluation

Synthetic Medication List

Patient ID	SYN-P005	**Record ID**	P005-D03
Patient name	Devika Menon	**Age / Sex**	68 years / Female
Document date	2025-10-05	**Record type**	Prescription
Clinical focus	General medicine follow-up with medication discrepancy	**Facility**	Example Community Clinic (synthetic)

Medication entry 1

Metformin 500 mg — one tablet twice daily, as written in the historical list.

Medication entry 2

Amlodipine 5 mg — one tablet daily, as written in the historical list.

Status note

This list is historical. It does not prove that either medicine remains active today.

Follow-up

Reconcile the list with the patient and current prescriber.

Safety notice: This is invented data for testing document extraction, provenance linking, longitudinal summarization and medication-reconciliation workflows. It must not be used to diagnose, prescribe, train clinical decision rules, or guide real patient care.
